Rwanda, Kigali

PROFILE

I am a software developer with a strong IT background and expertise in languages such as C#, Java, Python, PHP, JavaScript, HTML, CSS, and frameworks like React and Tailwind CSS. With a university degree in IT and a focus on full-stack web development, I am skilled in both backend and frontend development. I am passionate about creating efficient, scalable web applications and bringing innovative solutions to projects. My technical versatility and problem-solving abilities make me well-equipped to contribute to diverse development projects and drive innovation in the ever-evolving world of web technologies.
